AFFILIATES...we have been asked by the 49ers to generate between 10-20 individuals to act as "Interceptors" in an effort to **derail a ballot referendum**

targeted at overturning the City of Santa Clara's recent vote to approve the Development Agreement with the 49ers. Opponents only need to collect about 6,000 signatures to force another vote on the Stadium and thus delay the project indefinitely.

- We need between 10-20 individual who can work this Friday, Saturday and Sunday (for now, more days to follow) anyone who works a 4hr shift will be paid \$100
- "Interceptors" will ask potential signers of the misleading referendum to not sign it and instead to read the facts contained in a flier to be provided by the 49ers.

Please have your members/others contact **Paul Olson at (559)308-5005** on where to go to receive a brief training and materials (fliers).

We cannot let a small group of NIMBY's derail a \$1-Billion construction project...not if we can prevent it! - LET'S GET INVOLVED!
